

FIBRA MACQUARIE MÉXICO REPORTS SECOND QUARTER 2023 RESULTS

- ▶ Record high occupancy for industrial portfolio and consolidated portfolio of 98.4% and 97.5%, respectively
- ▶ Commencement of a 200 thousand square foot industrial development property in Apodaca, Nuevo León
- ▶ Industrial portfolio Same Store NOI up 11.8% YoY, in underlying USD terms
- ▶ Cash distribution of Ps. 0.5250 per certificate declared for 2Q23

MEXICO CITY, July 27, 2023 – FIBRA Macquarie México (FIBRAMQ) (BMV: FIBRAMQ) announced its financial and operating results for the second quarter ended June 30, 2023.

SECOND QUARTER 2023 HIGHLIGHTS

- AFFO per certificate was Ps. 0.6519 (US\$0.0368) for the quarter, compared with Ps. 0.6707 (US\$0.0335) for the prior corresponding quarter
- Consolidated occupancy at 97.5%, up 22 bps QoQ and 126 bps YoY, respectively
- Industrial portfolio customer retention at record 93.4% for the last twelve months
- Consolidated NOI per certificate up 15.5% YoY, in underlying USD terms
- Positive releasing renewal spreads of 9.8% on commercially negotiated leases for industrial portfolio
- Seven industrial buildings under stabilization or development comprising 2.0 million square feet of future GLA, representing an approximately 6% increase in industrial GLA, with a focus on capturing nearshoring opportunities and the demand for logistics space in key consumption markets
- 510 thousand square foot lease executed for Mexico City Metropolitan Area industrial development project prior to completion

“We are pleased with the continued strong performance of our portfolio, which demonstrates the ongoing demand for our well-located, high quality industrial assets,” said Simon Hanna, FIBRA Macquarie’s chief executive officer. “Supported by a highly occupied portfolio, strong market demand, and success in our new developments, we maintain a positive outlook and are focused on the execution of our industrial growth capex strategy. Over the last year, we have leased 0.8 million square feet of industrial development and expansion GLA at a weighted average NOI yield of 11.6%, and we are confident that our ongoing development projects will deliver successful outcomes in the coming quarters. We believe this approach to growth positions FIBRA Macquarie to expand its portfolio, grow earnings and deliver attractive total returns on a per certificate basis.”

“Our second quarter results saw record occupancy across our portfolio and we achieved high levels of retention as well as continued interest from new customers. We are also benefiting from the ongoing recovery of our retail portfolio which delivered a 21% annual increase in NOI and strong leasing activity. As we look ahead, we anticipate sustained performance through the combination of organic rental rate growth and the addition of new GLA through development completions. During the quarter, we further enhanced our balance sheet with a US\$250 million sustainability-linked refinancing, and benefited from a lower leverage ratio, giving us additional capacity and flexibility to execute on our growth strategy.”

CAPITAL ALLOCATION

FIBRAMQ continues to pursue a strategy of investing in and developing class “A” industrial assets in core markets that demonstrate strong performance and a positive economic outlook.

Industrial Portfolio Growth Capex Program

FIBRAMQ has 2.0 million square feet of GLA under development or stabilization with a total investment of approximately US\$150.7 million. FIBRAMQ expects to deploy US\$97.0 million over the next twelve months (this includes remaining building construction costs, contracted tenant improvements as well as deferred consideration for land and certain project-wide infrastructure costs).

FIBRA Macquarie maintains a target NOI yield on cost of between 9% and 11% on its industrial development program.

Cuautitlán, Mexico City Metropolitan Area

- FIBRAMQ executed a lease for its 510 thousand square foot building which is expected to contribute to income and be added to GLA upon the completion of tenant improvements and commencement of tenant occupancy in 2H23.
- FIBRAMQ is nearing completion on the second building in this project, comprising 225 thousand square feet of GLA. The expected delivery date is 2H23, with some short-term construction resources were focused on the completion of tenant improvements for the first building, allowing the tenant to take occupancy sooner than had been anticipated.

Apodaca, Nuevo Leon

- FIBRAMQ recently completed a 210 thousand square feet building in Apodaca which is now in stabilization and has a strong pipeline of lease prospects being evaluated.
- During 2Q23, FIBRAMQ commenced construction on an additional property comprising 200 thousand square feet of GLA, with an expected completion during 1H24.
- This Class A industrial park is anticipated to comprise a total potential GLA of 790 thousand square feet, of which FIBRAMQ has in progress or completed construction of 590 thousand square feet of GLA.

Ciudad Juárez, Chihuahua

- FIBRAMQ has an ongoing development of a 265 thousand square feet GLA building in the southeast market of Ciudad Juárez with an expected delivery date in 2H23.
- The project considers a phased, multi-year construction program of a 10-property Class A industrial park with a total potential GLA of 2.5 million square feet.

Reynosa, Tamaulipas

- FIBRAMQ continues construction of a 145 thousand square feet building in Reynosa with an expected delivery date in 2H23.

Tijuana, Baja California

- Works are ongoing for the development of the first building comprising 405 thousand square feet of GLA with an expected delivery date in 1H24.
- This Class A industrial park is anticipated to comprise a total potential GLA of 890 thousand square feet.

FIBRAMQ's industrial portfolio performance remains robust, with continued increases in occupancy and average rental rates. For the quarter ended June 30, 2023, FIBRAMQ's industrial portfolio delivered quarterly NOI of US\$45.5 million, a 12.6% annual increase. This result was driven by record quarterly industrial revenues of US\$50.7 million. At quarter-end, occupancy increased to a record 98.4%, up 130 basis points year over the year. New leasing activity comprised 85 thousand square feet of GLA,

exceeding record low quarterly moveouts of 22 thousand square feet. New leases featured a logistics company in Hermosillo and a packaging company in Mexicali. Renewal leases comprised 13 contracts and 896 thousand square feet, driving a record retention rate of 93.4% over the last 12 months.

- Total revenues were Ps. 186.1 million, up 16.9% over the prior corresponding quarter
- Retail portfolio cash collections during the quarter trended up to Ps. 186.2 million, an increase of 11.5% versus the prior corresponding period
- During the second quarter, recorded foot traffic at FIBRAMQ's shopping centers was approximately 11.5% above the prior comparable period, and approximately 16.2% below pre-pandemic levels

FIBRAMQ signed 62 new and renewal leases during the quarter totaling 40 thousand square meters of GLA. Leasing highlights included a new lease for a Smart Fit gym (1.5 thousand square meters) and record lease renewal activity including two Chedraui grocery anchor lease renewals (11.8 and 11.5 thousand square meters, respectively). With this strong leasing activity, the Retail portfolio benefited from strong retention of 84.1% and WALT being extended by 7.0% over the last 12 months.

As of June 30, 2023, trade receivables net of provisions were Ps. 2.3 million (excl. VAT), lower by 46.3% over the prior corresponding period.

Lease Rental Rate Summary

In the industrial portfolio, we achieved a weighted average positive releasing spread of 9.8% across 11 commercially negotiated leases, representing 0.8 million square feet of GLA. The weighted average releasing spread achieved over the last twelve months of commercially negotiated renewals was 12.1%.

In the retail portfolio, a weighted average positive release spread of 4.7% was commercially negotiated across 37 leases across 18.7 thousand square meters of GLA. The weighted average releasing spread achieved over the last twelve months of commercially negotiated renewals was 7.7%.

Based on FIBRAMQ's consolidated lease portfolio, 61.2% of leases (as measured by annualized base rent) are directly linked to either Mexican or US CPI.

BALANCE SHEET

As of June 30, 2023, FIBRAMQ had a US\$938 million of debt outstanding, US\$331 million available on its undrawn committed revolving credit facility and US\$22 million of unrestricted cash on hand.

FIBRAMQ's indebtedness is 95.7% fixed rate, with 4.6 years of weighted average term remaining.

FIBRAMQ's CNBV regulatory debt to total asset ratio was 30.9% and debt service coverage ratio was 5.3x.

On a consolidated basis, NAV per certificate was Ps. 41.1 as at June 30, 2023. This reflects an independent appraisal update through to 30 June 2023 which reflects a stabilized capitalization rate of 7.8% for the industrial portfolio and 9.6% for the retail portfolio.

CERTIFICATE REPURCHASE PROGRAM

FIBRAMQ has a Ps. 1,000 million CBFi repurchase-for-cancellation program available through to June 25, 2024. No certificates were repurchased during the quarter.

SUSTAINABILITY

During the second quarter, FIBRA Macquarie achieved EDGE certification on two industrial buildings. Green building certification coverage on FIBRAMQ's consolidated portfolio now represents 35.3% of GLA.

In addition, through the execution of the US\$250 million refinancing completed during the quarter, FIBRAMQ significantly increased the sustainability and green financing linked portion of drawn debt to 58.2%.

DISTRIBUTION

Scheduled Distribution

On July 27, 2023, FIBRAMQ declared a cash distribution of Ps. 0.5250 per certificate for the quarter ended June 30, 2023. The distribution is expected to be paid on or about September 28, 2023, to holders of record on September 27, 2023. FIBRAMQ's certificates are expected to commence trading ex-distribution on September 26, 2023.

FY23 GUIDANCE

AFFO per certificate

On April 27, 2023, FIBRAMQ provided FY23 AFFO per certificate guidance with a range of Ps. 2.60 to 2.65, using an assumed average exchange rate of Ps. 18.25 per US dollar for the remainder of FY23. FIBRAMQ's operational performance and underlying natural currency cashflows remain robust and consistent with the prior forecast. Reflecting FIBRAMQ's highly dollarized cashflows and the appreciation of the Mexican Peso against the US dollar, FIBRAMQ has revised its average exchange rate assumption for the remainder of FY23 to Ps. 16.75 per US dollar, which results in a revised FY23 AFFO per certificate guidance range of between Ps. 2.53 and Ps. 2.58 per certificate.

This revised FY23 guidance assumes:

- an average exchange rate of Ps. 16.75 per US dollar for the remainder of FY23, compared to the prior assumption of Ps. 18.25 per US dollar;
- no new acquisitions or divestments of stabilized properties;
- no issuances or repurchases of certificates; and
- no deterioration in broader economic and market conditions.

Distribution per certificate

FIBRAMQ is reaffirming its guidance for cash distributions in FY23 of Ps. 2.10 per certificate, paid in equal quarterly instalments of Ps. 0.5250 per certificate. The guidance is supported by an expected FY23 AFFO payout ratio of approximately 82.2%, based on the mid-point of FIBRAMQ's revised AFFO guidance per certificate. Distribution per certificate guidance does not consider any extraordinary distribution that may arise as a result of FIBRAMQ's FY23 fiscal result and its requirement to comply with certain Mexican FIBRA regulations.

The payment of cash distributions is subject to the approval of the Manager, stable market conditions and prudent management of FIBRAMQ's capital position.

Independent Auditors' Report on Review of Condensed Interim Consolidated Financial Statements

To the CBFIs holders of
Fideicomiso Irrevocable No. F/1622
(CIBANCO, S. A. Institución de Banca Múltiple) and its controlled entities:

Introduction

We have reviewed the accompanying June 30, 2023 condensed interim consolidated financial statements of Fideicomiso Irrevocable No. F/1622 (CIBANCO, S. A. Institución de Banca Múltiple) and its controlled entities (“FIBRA Macquarie México” or “the Trust”), which comprise:

- the condensed consolidated interim statement of financial position as at June 30, 2023;
- the condensed consolidated interim statements of comprehensive income for the three-month and six-month periods ended June 30, 2023;
- the condensed consolidated interim statements of changes in equity for the six-month period ended June 30, 2023;
- the condensed consolidated statements of cash flows for the six-month period ended June 30, 2023; and
- notes to the condensed interim consolidated financial statements.

Management is responsible for the preparation and presentation of these condensed interim consolidated financial statements in accordance with IAS 34, ‘Interim Financial Reporting’. Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of condensed interim consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

FIBRA Macquarie Mexico
2.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying June 30, 2023 condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

1. REPORTING ENTITY

FIBRA Macquarie México ("FIBRA Macquarie") was created under the Irrevocable Trust Agreement No. F/1622, dated November 14, 2012, as amended and restated from time to time, which is now maintained by Macquarie Asset Management México, S.A. de C.V., as settlor, and CIBanco, S.A., Institución de Banca Múltiple, as trustee (in such capacity, the "FIBRA Macquarie Trustee") and Macquarie Asset Management México, S.A. de C.V. as manager. FIBRA Macquarie is a real estate investment trust (Fideicomiso de Inversión en Bienes Raíces or "FIBRA") for Mexican federal tax purposes.

FIBRA Macquarie is domiciled in the United States of México ("México") and the address of its registered office is at Calz. Mariano Escobedo 595, Polanco Quinta Sección, Alcaldía Miguel Hidalgo, México City, 11560 with effect from January 19, 2023.

These unaudited condensed interim consolidated financial statements comprise the trust and its controlled entities (together referred as the "Group" or "FIBRA Macquarie"). FIBRA Macquarie was established with the purpose of investing in real estate assets in México.

Relevant activities during the six months period ended June 30, 2023

On March 10, 2023, the Group paid an extraordinary cash distribution of \$669.0 million (0.8788 per CBF). This extraordinary cash distribution is in addition to the scheduled cash distributions in respect of the full year 2022 totalling 2.0000 per CBF in accordance with Mexican tax rules.

On June 27, 2023, FIBRA Macquarie announced the closing of two sustainability-linked unsecured credit facilities with Banco Nacional de Comercio Exterior, S.N.C., I. B.D. ("Bancomext") and Banco Mercantil del Norte, S.A., I.B.M., Grupo Financiero Banorte ("Banorte") for US\$150.0 million and US\$100.0 million, respectively. Proceeds were used to repay the US\$250.0 million private placement notes that were due to mature on June 30, 2023. These new facilities extend maturities for five years and incorporates a green building certification goal, while significantly increasing the sustainability and green financing linked portion of drawn debt. FIBRA Macquarie also entered into interest rate swaps to cover 100% of the notional amounts of the new loans. Transaction costs associated with this refinancing were treated in line with the relevant accounting standards.

2. BASIS OF PREPARATION AND PRESENTATION

a) Statement of compliance

These unaudited condensed interim consolidated financial statements for the six months ended are for the Group and have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been condensed or omitted in accordance with the provisions for reporting intermediate periods. Therefore, the condensed interim consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2022, prepared in accordance with IFRS. The results of the interim periods are not necessarily indicative of the comprehensive income for the full year.

The Manager considers that all regular and recurring adjustments necessary for a fair presentation of the unaudited condensed interim consolidated financial statements have been included.

These unaudited condensed interim consolidated financial statements were approved by the Technical Committee of FIBRA Macquarie on July 27, 2023.

b) Historical cost convention

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis under the historical cost convention, as modified by the revaluation of investment properties at fair value.

2. BASIS OF PREPARATION AND PRESENTATION (CONTINUED)

c) Critical accounting judgements and estimates

During the preparation of the unaudited condensed interim consolidated financial statements, the Manager is required to make judgements, estimations and estimates of uncertainties at June 30, 2023 that affect the application of accounting policies. Estimates and assumptions used in these unaudited condensed interim consolidated financial statements are based on information available to the Group as at the end of the reporting period. The notes to the unaudited condensed interim consolidated financial statements set out areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the unaudited condensed interim consolidated financial statements such as:

(i) Judgements

- Classification of joint arrangements into joint ventures "JV": Critical judgements are made with respect to the fair values of investment properties included in the JV with Grupo Frisa. See note 9 for further details.

(ii) Assumptions and estimation of uncertainties

- Critical assumptions relating to the valuation of investment properties at fair value include the receipt of contractual rents, expected future market rents, renewal rates, capital expenditures, discount rates that reflect current market uncertainties, capitalization rates and recent investment properties transactions. If there is any change in these assumptions, or regional, national or international economic conditions, the fair value of investment properties may change materially. See note 10 for further details.

- Trade and other receivables: The portfolio is measured based on a forward-looking 'Expected Credit Loss' ("ECL") model. This requires considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. Any change in management's estimates can result in modification of the impairment loss of trade receivables.

- Estimation of fair value of investment properties: Critical judgements are made with respect to the fair values of investment properties. The fair values of investment properties are reviewed regularly by management with reference to independent property valuations and market conditions existing at the reporting date, using generally accepted market practices. The Independent Valuer are experienced, nationally recognized and qualified in the professional valuation of industrial and retail buildings in their respective geographic areas. FIBRA Macquarie has performed yearly and half-yearly independent appraisals. See note 10 and 16 for further details.

- Estimation of fair value of derivative financial instruments: The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of inputs such as credit risk and volatility. Changes in assumptions about these factors could materially affect the reported fair value of financial instruments. See note 16 for further details.

- Income tax and deferred income tax: The recognition and measurement of deferred tax assets or liabilities is dependent on management's estimate of future taxable profits and income tax rates that are expected to be in effect in the period the asset is realised, or the liability is settled. Any changes in management's estimates can result in changes in deferred tax assets or liabilities as reported in the unaudited condensed interim consolidated statement of financial position. See note 13 for further details.

- Goodwill is tested for impairment on an annual basis, and when circumstances indicate that the carrying value may be impaired based on key assumptions underlying the portfolio premium.

Management believes that the estimates used in preparing the unaudited condensed interim consolidated financial statements are reasonable. Actual results in the future may differ from those reported and therefore it is possible, on the basis of existing knowledge, that outcomes within the next financial year that are different from our assumptions and estimates could result in an adjustment to the carrying amounts of the assets and liabilities previously reported.

2. BASIS OF PREPARATION AND PRESENTATION (CONTINUED)

d) Measurement of fair value

The Group measures financial instruments, such as derivative and non-derivative financial assets and investment properties, at fair value at every reporting date. Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either: in the principal market for the asset or liability, or, in the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the unaudited condensed interim consolidated financial statements are categorised in the level three hierarchy based on inputs used in the valuation process. The level in the fair value hierarchy under which fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the entity for identical assets or liabilities. These quoted prices generally provide the most reliable evidence and should be used to measure fair value whenever available.

Level 2 – Fair value is based on inputs, other than level 1 inputs, which are observable for the asset or liability, either directly or indirectly, substantially for the full term of the asset or liability through corroboration of observable market data.

Level 3 – Fair value is based on significant unobservable inputs for the asset or liability. Such inputs reflect the Group's own assumptions about how market participants would price the asset or liability.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Group has consistently applied its accounting policies for all periods presented in the unaudited condensed interim consolidated financial statements and in relation with those of the previous financial year.

Accounting standards issued but not yet effective

A number of new accounting standards and amendments to accounting standards are effective for annual periods beginning after January 1, 2023 and earlier application is permitted. The Group has not early adopted any of the forthcoming new or amended accounting standards in preparing these unaudited condensed consolidated interim financial statements.

The International Sustainability Standards Board (ISSB) issued its first two sustainability reporting standards on June 26, 2023; which in summary includes the following:

- General Requirements for Disclosure of Sustainability-related Financial Information (IFRS S1), the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity's value chain.
- Climate-related Disclosures (IFRS S2), the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

IFRS S1 and IFRS S2 are effective for annual reporting periods beginning on or after January 1, 2024. This is subject to the endorsement of the standards by local jurisdictions. The Group is currently evaluating the impact of these ISSB on its consolidated financial statements.

5. SEGMENT REPORTING

The chief operating decision-maker is the person that allocates resources to, and assesses, the performance of the operating segments of an entity. The Group has determined that its chief operating decision-maker is the Chief Executive Officer ("CEO") of the Group. The Manager has identified the operating segments based on the reports reviewed by the CEO in making strategic decisions.

The operating segments obtained their income primarily from lease rental income derived from tenants in México divided into two segments (Industrial and Retail). During the period, there were no transactions between the Group's operating segments.

The locations of the properties are grouped by regions as follows: **North East:** Matamoros, Monterrey, Nuevo Laredo, Reynosa, Saltillo; **Central:** Guadalajara, Irapuato, México City Metropolitan Area (MCMA), Puebla, Querétaro, San Luis Potosí; **North West:** Hermosillo, Los Mochis, Mexicali, Nogales, Tijuana; **North:** Cd. Juárez, Chihuahua; **South:** Cancún, Tuxtpec.

The segment information includes proportionately consolidated results of the joint ventures, which are eliminated in the segment reconciliations. The CEO monitors the performance of the Group based on the location of the investment properties, as follows:

9. EQUITY-ACCOUNTED INVESTEEES

MMREIT Retail Trust III entered into two joint arrangements with Grupo Frisa through which it acquired a 50% interest in two joint venture trusts ("JV Trusts"). These have been classified as joint venture trusts under *IFRS11 – Joint Arrangements* as MMREIT Retail Trust III has a right to 50% of the net assets of the JV Trusts. The debt used to finance the purchase of the assets held by the JV Trusts is at the JV Trust level. FIBRA Macquarie and/or MMREIT Retail Trust III have an exposure in relation to this debt solely in their capacity as joint obligors and only in exceptional circumstances which do not currently exist.

Carrying amount at the end of the period/year	844,986	730,160

* Investment properties under construction are initially recognized at cost since the fair value of these properties under construction cannot reasonably be measured as at that date. At the year-end or date of completion, whichever is earlier, any difference between the initial recognition and the fair value at that date will be taken to the income statement.

b) Asset-by-asset valuation

Valuations of investment properties are carried on half-yearly basis by a qualified valuation specialist independent of FIBRA Macquarie (the "Independent Valuer"). CBRE México, an internationally recognized valuation and advisory firm with relevant expertise and experience, was engaged as the Independent Valuer to conduct an independent appraisal of FIBRA Macquarie's investment properties as at June 30, 2023 and December 31, 2022.

The valuation methods – comparable transactions, market value and capitalization analysis – are applied by the Independent Valuer in order to estimate that market value of the acquired properties applying primarily an income analysis, using direct capitalization as well as discounted cash flow analysis.

The fair value measurement for all investment properties was determined based on the inputs to the valuations techniques mentioned below and its categorised as level 3.

The significant inputs and assumptions in respect of the valuation process are described in consultation with management.

The inputs used in the valuations as at June 30, 2023 were as follows:

- The range of reversionary capitalisation rates applied to the portfolio were between 6.75% and 10.25% (December 31, 2022: 7.00% and 10.25%) for industrial and between 9.25% and 11.00% (December 31, 2022: 9.25% and 11.00%) for retail properties.

- The discount rates applied range between 8.50% and 11.75% (December 31, 2022: 8.50% and 11.75%) for industrial properties and 11.75% and 13.50% (December 31, 2022: 11.75% and 13.50%) for retail properties.

- The vacancy rate applied was between 2.00% and 5.00% (December 31, 2022: 2.00% and 5.00%), with a weighted average of 3.43% (December 31, 2022: 3.45%) for industrial properties and between 5.00% and 20.00% (December 31, 2022: 3.00% and 20.00%), with a weighted average of 8.29% (December 31, 2022: 8.64%) for retail properties.

The estimated fair value increases if the estimated rent increases, vacancy levels decline or if discount rates (market yields) and reversionary capitalisation rates decline. The valuations are sensitive to all three assumptions. Changes in discount rates attributable to changes in market conditions can have a significant impact on property valuations.

The difference between the above fair value for financial reporting purposes and the carrying value at the end of the period is primarily on account of capitalized leasing costs and tenant improvements which are carried at historical cost and amortized.

Interest-bearing liabilities-current

There are no current interest-bearing liabilities as at June 30, 2023. The comparative balance as at December 31, 2022 represents the notes through various insurance companies of \$4,839.8 million equivalent to USD\$250.0 million that were classified as current interest-bearing liabilities as at the time of reporting the maturity of these notes was in June 30, 2023.

Interest-bearing liabilities-non current

On April 5, 2022, FIBRA Macquarie closed a US\$425.0 million unsecured credit facility. The new sustainability-linked facility was used to repay an existing US\$180.0 million unsecured term loan and US\$10.0 million draw under the unsecured credit facility that was due to expire on April 1, 2024. The unsecured credit facility comprises: (i) a US\$180.0 million non-amortizing, five-year term loan and (ii) a US\$245.0 million equivalent, five-year committed revolving credit facility that is available for general corporate purposes, including asset investments. The committed revolving credit facility is comprised of a US\$180.0 million US Dollar-denominated tranche and a Ps. 1,300.0 million Mexican Peso-denominated tranche (equivalent to US\$65.0 million).

On June 28, 2022, FIBRA Macquarie closed a US\$90.0 million unsecured uncommitted five-year revolving credit facility with BBVA México and drew US\$50.0 million with respect to this credit facility which was subsequently repaid on December 19, 2022. As at June 30, 2023, the Group had made two drawdowns of US\$ 20.0 million each on March 3, 2023 and May 31, 2023, respectively.

On December 9, 2022, FIBRA Macquarie closed a US\$150.0 million unsecured sustainability-linked credit facility with BBVA México and The Bank of Nova Scotia. The unsecured credit facility is comprised (i) a US\$75.0 million non-amortizing, four-year term loan and (ii) a US\$75.0 million, three-year committed revolving credit facility, which can be extended for one additional year. On December 19, 2022, FIBRA Macquarie drew US\$75.0 million from the term loan facility and used US\$50.0 million of the proceeds to repay the amounts drawn under the other unsecured revolving facility with BBVA México.

On June 27, 2023, FIBRA Macquarie announced the closing of two sustainability-linked unsecured credit facilities with Banco Nacional de Comercio Exterior, S.N.C., I. B.D. ("Bancomext") and Banco Mercantil del Norte, S.A., I.B.M., Grupo Financiero Banorte ("Banorte") for US\$150.0 million and US\$100.0 million, respectively. Proceeds were used to repay the US\$250.0 million private placement notes that were due to mature on June 30, 2023. These new facilities extend maturities for five years and incorporates a green building certification goal, while significantly increasing the sustainability and green financing linked portion of drawn debt. FIBRA Macquarie also entered into interest rate swaps to cover 100% of the notional amounts of the new loans. Transaction costs associated with this refinancing were treated in line with the relevant accounting standards.

On June 25, 2017, FIBRA Macquarie's Technical Committee approved a CBFi buy-back program under the terms of the Trust Agreement and provided instructions to the Fund Trustee to carry out the repurchase of certificates for subsequent cancellation. Similar to approvals obtained in prior years on April 25, 2023, FIBRA Macquarie's Technical Committee approved the extension of this program through June 25, 2024.

From the inception of the CBFi buy-back program to June 30, 2023, a total of 50,074,481 CBFIs, amounting to \$1,066.0 million (including transaction costs), have been repurchased.

15. NON-CONTROLLING INTEREST

On September 14, 2020, FIBRA Macquarie, through a wholly owned investment trust, completed the acquisition of 50% equity in a newly formed joint venture trust (the "F/3493 JV Trust") with Inmobiliaria Alamedida (the "F/3493 JV Partner") for a total consideration of US\$12.2 million. FIBRA Macquarie conducted a control assessment under IFRS 10 and concluded that it has control over F/3493 JV Trust, and therefore, should apply consolidation accounting and reflect the ownership of F/3493 JV Partner as non-controlling interests in its unaudited condensed interim consolidated financial statements.

16. FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

The Group measures the following assets and liabilities at fair value and further information about the assumptions made in measuring fair values is included in the following notes:

- Investment properties, (note 10).
- Derivative financial instruments, (note 12).

Fair value reflects the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Quoted prices or rates are used to determine fair value where an active market exists. If the market for a financial instrument is not active, fair values are estimated using present value or other valuation techniques, using inputs based on market conditions prevailing on the measurement date.

The values derived from applying these techniques are affected by the choice of valuation model used and the underlying assumptions made regarding inputs such as timing and amounts of future cash flows, discount rates, credit risk, volatility and correlation.

The investment properties valuations were determined using discounted cash flow projections, based on significant unobservable inputs. These inputs include:

- Future rental cash flows: based on the location, type and quality of the properties and supported by the terms of any existing lease or other contracts or external evidence such as current market rents for similar properties;
- Discount rates: reflecting current market assessments of the uncertainty in the amount and timing of cash flows;
- Vacancy rates: based on current and expected future market conditions after expiry of any current leases;
- Maintenance costs: including necessary investments to maintain functionality of the property for its expected useful life;
- Capitalisation rates: based on location, size and quality of the properties and taking into account market data at the valuation date; and
- Terminal value: taking into account assumptions regarding maintenance costs, vacancy rates and market rents.

The Management regularly reviews significant unobservable inputs and valuations adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair value, then the Management assesses the evidence obtained from the third parties to support the conclusion about these valuations meet the requirements of IFRS, including the level in the FV hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Board of Directors.

The fair value of derivative financial instruments is calculated as the present value of the estimated future cash flows.

Estimates of future floating-rate cash flows are based on quoted swap rates, futures prices and interbank borrowing rates.

Estimated cash flows are discounted using a yield curve constructed from similar sources and which reflects the relevant benchmark interbank rate used by market participants for this purpose when pricing interest rate swaps.

Financial instruments measured at fair value are categorised in their entirety, in accordance with the levels of the fair value hierarchy as outlined below:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The appropriate level for an instrument is determined on the basis of the lowest level input that is significant to the fair value measurement.

The following table sets out the fair value of financial instruments (net of unamortized acquisition costs) not measured at fair value and analyses them by the level in the fair value hierarchy into which each fair value measurement is categorised.

* Net of unamortized transaction costs.

The following table summarizes the levels of the fair value hierarchy for financial instruments measured at fair value of the Group:

	Level 1	Level 2	Level 3	Total
As at June 30, 2023	\$'000	\$'000	\$'000	\$'000
Derivative financial instruments	-	218,710	-	218,710
Investment properties	-	-	46,997,284	46,997,284
As at December 31, 2022				
Derivative financial instruments	-	178,404	-	178,404
Investment properties	-	-	48,861,010	48,861,010

The fair value of the interest rate swaps is based on independent third-party broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the term and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

The fair value of the interest rate swaps reflects the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty, where appropriate.

The following table presents the changes in Level 3 of the fair value hierarchy for the Group:

	Jun 30, 2023	Dec 31, 2022
	\$'000	\$'000
Balance at the beginning of the period/year	48,861,010	47,659,885

17. LEASES

a) As a lessor

Agreements entered into by the Group and its tenants have been classified as operating leases under IFRS16. The Group is the lessor of the leases entered into with third parties in respect of its investment properties. Of the leases entered into by the Group, there are a certain amount that are fixed-term leases which include renewal options exercisable by the respective tenant. Notwithstanding these particular leases, the lease agreements entered into by the Group have expiration dates ranging from June 30, 2023, to April 30, 2048.

c) Manager

MAM México acts as manager of FIBRA Macquarie and has its registered office at Pedregal 24, piso 21, Col. Molino del Rey, Miguel Hidalgo, 11040, México City.

Under the terms of the Management Agreement, MAM México is entitled to a base management fee of \$58.2 million (June 30, 2022: \$46.1 million) and \$106.1 million (June 30, 2022: \$93.0 million), for the three and six months period ended June 30, 2023. The base management fee is calculated as 1% per annum of the value of the market capitalization of FIBRA Macquarie for the relevant calculation period. The fee is calculated on April 1 and October 1 respectively for the subsequent six month period. The market capitalization is calculated as the product of: (i) the average closing price per CBFI during the last 60 trading days prior to the calculation date and, (ii) the total number of outstanding CBFIs at the close of trading on the calculation date.

MAM México is also entitled to receive a performance fee, which is calculated as 10% of an amount comprising the market capitalization, per above, plus the aggregate amount of all distributions made to CBFI holders, increased at a rate equal to the aggregate of 5% per annum and an annual cumulative Mexican inflation rate from their respective payment dates, minus the aggregate issuance price of all issuances of CBFIs, plus the aggregate amount of all repurchases of CBFIs, in each case, increased at a rate equal to the aggregate of 5% per annum and the annual cumulative Mexican inflation rate from their respective issuance or repurchase dates, less any performance fees previously paid. This potential fee is payable on the last business day of each two-year period commencing on March 19, 2012 and must be reinvested into FIBRA Macquarie CBFIs for a minimum duration of one year. As at June 30, 2023, no performance fee was payable by FIBRA Macquarie.

d) Other associated entities

During the three and six months June 30, 2023, the Group accrued expenses to affiliate entities (MAM México, mainly) totalling \$1.4 million (June 30, 2022: \$0.2 million) and \$2.6 million (June 30, 2022: \$0.3 million) respectively, in respect of out of pocket expenses incurred by affiliate entities of MAM México, in performance of its duties as Manager.

As at June 30, 2023, Macquarie Infrastructure and Real Asset Holding Pty Limited, an affiliate entity of MAM México respectively, held 36,853,632 CBFIs and received a gross distribution of \$88.6 million during the period ended June 30, 2023 (June 30, 2022: \$53.4 million).

From time to time, other related subsidiaries or associates of Macquarie Group Limited may hold CBFIs on their own account or on account of third parties.
